

# Match It!

# Money

Learning coin denominations and counting money is a challenging skill for early learners. Match It! Money is the perfect tool for teaching and reinforcing this concept. Children simply count the coins and match it to the object that costs the same amount of money. The set has 30 puzzle cards featuring 30 combinations of coins and objects. The puzzles are self-correcting - only cards with the correct answers will fit together. Match It! Money is a fun way to learn about money. Recommended for ages three and up. Bilingual packaging.

**Item #462201**

## Features
